

DEEPROOTEDSOUL

TECHNICAL

SPECIFICATION

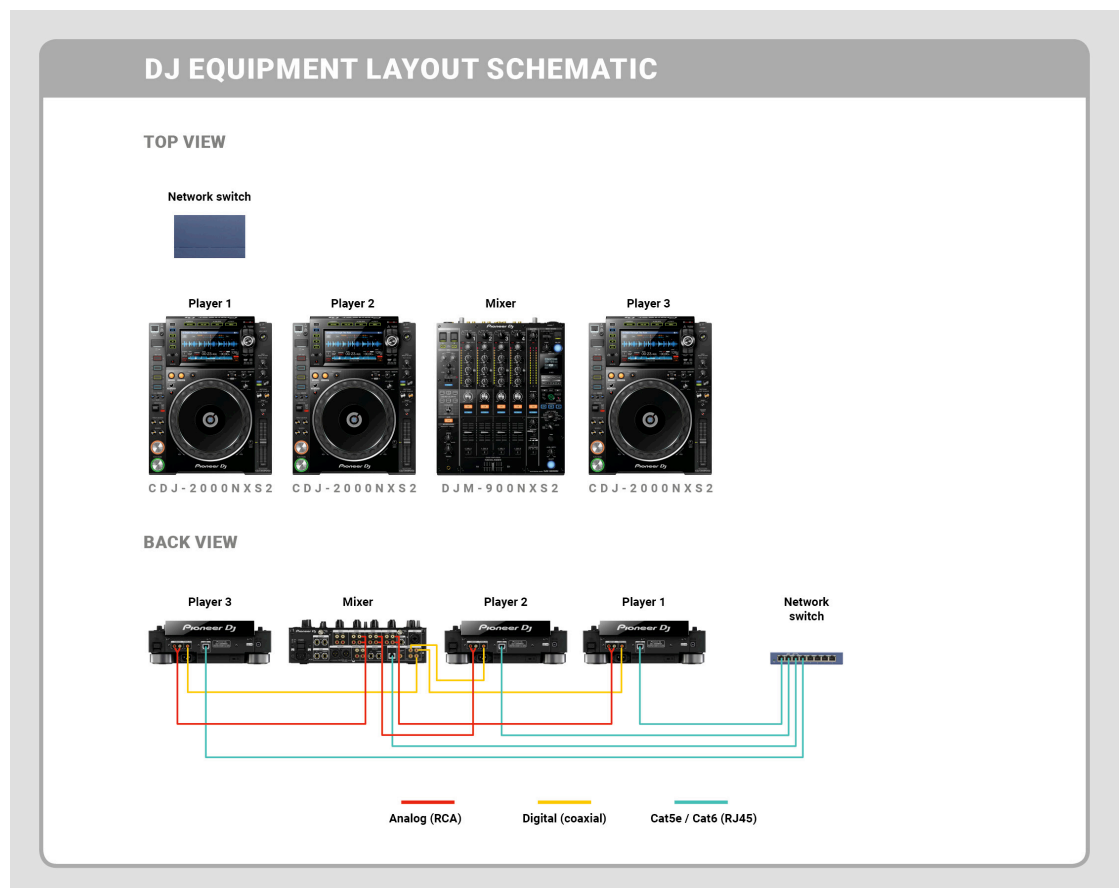

The following technical rider is a **MINIMUM** specification, if these specifications are not met this will result in **NO PERFORMANCE**.

DJ REQUIREMENTS

We will need from you:

- One (1) Pioneer DJM-900 **NEXUS** (DJM-900NXS) DJ mixer
- Three(3) Pioneer CDJ-2000 **NEXUS** (CDJ-2000NXS), linked via Ethernet hub
- Two (2) monitor speakers – Mackie SRM-450 or similar, adjustable through mixer
- Space for a laptop etc. and 1 power socket.

It is absolutely necessary for the show that the CDJ's and the DJM are **NEXUS** editions with fully functional USB ports.

ADDITIONAL RIDER AND BOOTH SETUP INSTRUCTIONS

- All equipment must be in high quality and in full working condition without any defects and with presence of full connection which allows usage of all functions
- A professionally trained sound man on site for the entire set. Sound system must be up to the artist's standards (loud enough for the size of the room, clear sound, plenty of bass, no sound bleed from other stages or rooms). Artist reserves the right to have people removed from the stage during the performance. If the technical rider is not to exact specification the artist reserves the right to cancel the performance at any time without penalty.
- Stage area shall be stable and structurally safe. Artist reserves the right, without liability, of refusal to use any equipment which they feel is unfit, unsafe or does not meet the agreed specifications for the engagement.

SECURITY

The well being of artist's equipment is the promoter's responsibility when artist is not present. Promoter is responsible for the security of the equipment and assigning security guards to prevent theft or tampering.

SOUND CHECK

A sound check is not always necessary if the show has been advanced and cleared, however, in situations where clarification is necessary a brief sound check before doors open may be required.
